OPTIONAL CHRISTMAS RECITAL

Tentative date: Saturday, December 19, 2026
Venue, performance time, and ticket pricing will be announced once finalized. Participation is optional; children may take the full class series without participating in the recital.

Merry & Bright - What Parents Need to Know

Costumes, attendance, support, recital details & policies

Costumes & Sizing

- The Nurtured Nest will order costumes. Families do not need to shop for performance outfits.
- We will collect each child's sizing before ordering. Please submit sizing by the requested deadline so costumes can be ordered together.
- Costume pricing is separate from series tuition and will be shared before orders are placed.
- Once a costume has been ordered for your child, costume costs are generally non-refundable because they are purchased specifically for that performer.

Attendance & Missed Classes

- This is a 6-week series, so consistent attendance is encouraged to help children learn the routine gradually and comfortably.
- No make-up classes are offered for individual absences. Missed classes are not transferable to another child or another class time.
- If The Nurtured Nest cancels a class, we will communicate a reschedule, credit, or other appropriate solution.
- Please arrive a few minutes early so class can begin on time and transitions stay calm.

Inclusive & Sensory-Conscious

- Neurodivergent and neurotypical children are welcome. No prior dance or performance experience is required.
- We focus on participation, confidence, connection, movement, and fun - not perfection.
- Grown-ups may participate, stay nearby, or join their child on stage when extra support is helpful.
- Please tell us about sensory needs, communication preferences, mobility needs, elopement concerns, or other supports that may help your child feel successful.

Recital Details

- Recital participation is optional.
- Tentative recital date: Saturday, December 19, 2026.
- Venue, arrival time, performance order, and ticket pricing are still to come.
- We are planning a sensory-conscious environment with a short program, lower-pressure expectations, and flexibility for children who need support.

Registration, Payment & Step Up

- Registration is not considered final until space is available and payment or approved funding is confirmed.
- Families planning to use Step Up For Students should select that option during registration. We will follow up with applicable funding/payment details.
- Any remaining balance not covered by funding is the family's responsibility.
- Class placement is based on the registered age group unless The Nurtured Nest discusses another fit with the family.

Health, Safety & Participation

- A parent/caregiver may be asked to remain nearby or participate when additional support is needed for safe, successful participation.
- Please keep children home for fever, vomiting, contagious illness, or when they are not well enough to participate. Individual illness absences do not create a make-up class.
- This series is enrichment/movement programming. It is not medical treatment, therapy, or childcare.
- The Nurtured Nest may adjust small logistical details when needed for safety, staffing, venue requirements, or the needs of the group; families will be notified of meaningful changes.

Need a different schedule?

School-aged kiddos or can't make the weekday schedule? If there is enough interest, we may open a limited number of Sunday morning classes for families unable to attend during the week. Please indicate interest when registering.

After registration, you'll receive confirmation, payment/funding steps, costume sizing details, and recital updates.
